OUR MISSION

Our mission is to facilitate the exchange of goods and services in an environment of fair and equitable trading to create a feeling of well being over and above the member's expectation

OUR GUIDING PRINCIPLES

- Our prosperity parallels that of our community, locally, nationally and internationally
- Every policy decision is based upon the wellbeing of our members
- We endeavour to create a feeling of wellbeing over and above the expectation of agents, staff and members
- We embrace all cultures, we judge none
- Risk making a wrong decision quickly rather than no decision at all
- Agents are most important to continued growth, as are staff and members
- Staff ideas are valued as we continually strive to improve the business formula
- Dare to be different – think and work faster, smarter and with less
- One thing that can be promised is change – it inspires innovation
- Communication engenders trust and loyalty – ring back
- If you become emotional in a decision, pass it on to someone else

Beachfront Development Site (Qld)

This superb beachfront site has recently gained Development Approval for 42 two-bedroom units (7 blocks of 6 units each on 3 levels) plus one Block consisting of Conference facilities and Restaurant (on 2 levels) located in a quiet area in which a limited supply of beachfront property exists.

The property also offers excellent flexibility and may also be split into a number of different configurations of the existing 8 titles should the proposed development not be desired. Ideally situated within close proximity to Hay Point and the Dalrymple Bay Coal Port, this site is well positioned to capitalise from the coal port's recently announced expansion program to be undertaken by Babcock and Brown's Infrastructure arm. Dalrymple Bay Port is one of the largest Coal Ports in the world, exporting the majority of coal from the Nebo and Bowen Coal Basins.

Vendor finance is available at normal bank rates.

dLook.com.au—(Australia's Smartest Online Business Directory) - Has **GOOD news & BAD news**

The good news is that dLook.com.au is now officially the number 2 online business directory in Australia and ranks in the top 20,000 websites in the world (see www.alexacom world traffic rankings).

There's more good news. Over 320,000 quote requests have been forwarded by dLook over the last 104 days, with a hit rate of over 61%. And yes, there is more. The maximum cost for a dLook Premium listing is \$1.63(inc gst) per day! - (or \$488 per year, **\$300 trade/\$188cash**)

And now for the bad news: Only 10,227 of the 1 million plus businesses listed on dLook.com.au have upgraded to a Premium listing..... why is this so?

Well, that's the bad news, we don't know. It can't be the cost, it can't be the service, it can't be that we all have too many customers even if the Reserve Bank says we do. Please let us know!

Who's got your back?

Securing your business data with confidence!

To make it easier to make the decision to protect your VITAL business data, take advantage of this SPECIAL offers:

Until the end of October we will accept 50% E Banc Trade dollars and 50% cash on a year's subscription.

Why back up your data? - Consider these compelling reasons:

Businesses that are operating without a data backup plan are walking a risky line. Statistically, they will lose valuable data at some point - the question is how valuable the data will be at the time of loss and how expensive and difficult it will be to recover or replace. Here are a few important points that you should consider when thinking about your current backup procedures:

In-house manual data backup leaves data open to vulnerabilities - manual processes are loaded with opportunities for humans to forget, misplace, or simply botch the backup. Human error, theft of hardware or backup media, disgruntled employees, forgetful employees, viruses/Trojans, and hardware systems failures can cause irrecoverable loss.

Online backup minimises all of these threats.

Manual backup, compared to remote backup, is expensive and unreliable - the cost of employee time, hardware and software installation and support, tape or other backup media rotation and verifications all add up very quickly. Only through automated and secure remote backup can an organisation insure their data is backed up securely, automatically, and offsite. There is no hardware or software to purchase and files can be restored very quickly without searching through volumes of tapes or discs.

For more information on the importance of data backup please see the White Paper on data protection located at the following link: <http://remote-backup.com/whitepapers/online-backup-lifeline.htm>
